## ESSAY

Why do you want to be a part of the company?

Megaworld Corp. is a well known here in the philippines, being one of the lucky people who employed here is a huge boost to morale of that individual. And also Megaworld Corp. giving people who lacks of experience yet in their respective industry a chance to prove themselves to world and i also wants to prove myself as a Career Shifter that it's not too late for me to pursue what i really wants, If i'll be lucky enough to passed and be picked by your good company it'll be my biggest achievements so far in my career.

What could you contribute to the company?

As a well oriented and always go by the book person, i openly say that i'll be a good asset at your good company. as a web developer i can contribute to make a interactive and responsive web designs, I can contribute to check and debug any error in code structures, I can also contribute to optimizing an existing websites to make it easier, faster loading times and improves search engines, overall i can contribute to make an impact in a company's digital presense, customer experience, and business outcomes

Why should the company hire you?

If there's a trait that i have that others don't have is this eagerness to learn something new, anything new to me i can't help but to do anything just to learn what that is, how did someone do that, what are the proper ways to do that. In that case i'll assure you maam/sir that if i'll be chosen by your company if its something that i don't know i can easily learn or adapt what the company wants from me. And also I always go by the books if the higher position wants me to follow what their standard is i can wholeheartedly obey them, I know that sometimes its not wrong to give suggestions so i'll do that from time to time and if my suggestions didn't go by their standards i accept it like a man and don't hold grudges against the them. Lastly, I may not have that experience like the other applicants do but i'am confident that i'm skilled enough to be part of this good company.
